

**July 28, 2011**

Dear Hill County Home Owners :

We have been informed that the Hill County Home Owners' Association, is having its Annual General Meeting on July 31, 2011. Our best wishes to the Association and its Members on this important occasion

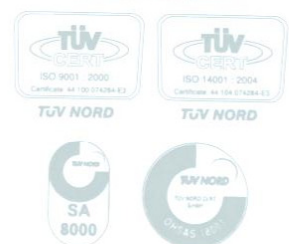

We also take this opportunity to reassure the Hill County home owners of our resolve to complete the Project as per the promised standard. As to the time lines and the project schedules, we do have them in place internally, but we need some more time to firm up the same before publication

We have stepped up the pace of construction work in the apartment complex and we have taken up 3 more towers (*Dalhousie, Shimla and Ooty*) for construction work. With this, the construction work is in progress for 7 towers

We have been receiving persistent communications from the Association to hold a Customer Meet soon. We are committed to hold the Meet and are working on a date for the same sometime in September 2011 by which time there will also be more visible progress in the Project site

We are also launching our newsletters with measurable progress to update the status of the project. You will start receiving the updates on a monthly basis starting August 2011

: 2 :

We renew our appeal to those customers who have been pursuing legal remedies, to withdraw their cases to facilitate project completion in a better environment and we are willing to address their concerns fairly and reasonably. At the same time we assure all the other customers that the ongoing legal disputes shall not in any way hinder the project execution

Looking forward to your continuous cooperation for the completion of the project

With Best Regards
